STAGE 1 - 60 KMS

CÓRDOBA - ÉCIJA

“Écija is where Andalusia rises... literally, among Baroque towers and endless skies.”

DAY 4

STAGE 2 - 60 KMS

ÉCIJA - CARMONA

*

"Between Écija and Carmona, you cycle through the purest Andalusia: open horizons, silence... and essence."

Leaving Écija behind, we move away from its skyline of Baroque towers and enter a completely different landscape: the open countryside—vast, endless, and peaceful.

It is a pleasant stage, with a gentle and smooth profile, ideal for riding. As we approach Carmona, the scenery begins to change, and high above the plain appears one of the most spectacular cities in the province of Seville.

Carmona is history, heritage, and a moment to pause. Its ancient walls, monumental gates, and sweeping views over the countryside make the arrival a perfect reward after the day's effort.

This stage takes us from historic Carmona, with its ancient walls and cobblestone streets, to the heart of Seville, one of the most vibrant and iconic cities in Andalusia.

The route is smooth and easy to ride, ideal for enjoying the Sevillian countryside as we cycle among olive groves and golden plains.

As we approach Seville, the towers and domes that define the city begin to appear, and the Guadalquivir River guides us toward the historic center.

Arrival feels like a true reward: lively streets, iconic landmarks such as the Giralda, and the unique atmosphere of the old town invite you to pause, explore, and celebrate the completion of the stage.

DAY 7

STAGE 5 - 40 KMS

LEBRIJA – SANLÚCAR

*

"From the heart of the countryside to the mouth of the Guadalquivir River."

Today we have a gentle stage, ideal for enjoying the feeling of freedom and the Andalusian landscape as we approach the coast. The light changes as we move forward, drawing us closer to the sea.

In the afternoon, the stage is enhanced with a premium moment: a visit to the LA GITANA winery in Sanlúcar, where you can discover the region's winemaking tradition, taste unique wines, and learn about the history that connects these lands with the Guadalquivir River and the Atlantic.

This is one of those details that make the journey not just about cycling, but a complete sensory experience.

DAY 8

STAGE 6 - 50 KMS

SANLÚCAR – EL ROCÍO

*

"From the marshlands to the endless horizon, crossing by boat and cycling along the beach, El Rocío awaits us as the reward for the adventure."

One of the most special moments of the stage is the boat crossing, traveling along the branches of the river toward its mouth.

After disembarking, the most epic part on wheels begins: riding along the beach and the dunes of Doñana, with sand, sea, and an endless horizon as constant companions.

Finally, arrival in El Rocío is the perfect finale. Its white streets, mystical atmosphere, and the sanctuary that gives the village its name welcome the cyclist with a powerful sense of achievement and celebration. The stage is not just a physical journey, but a complete experience of landscape, history, and emotion.
